How to Install the Top Mounted Refrigeration Unit?

- The monoblock refrigeration unit is mounted on the roof panel of the cold room or freezer room.
- Open a hole with size of 855mm*405mm on the roof panel.
- Position the unit onto the cold room roof panel inserting the evaporator section in the opening.
- Suitable for GL-BYTDDN10EL / GL-BYTDDN20EL / GL-BYTDDN30EL.
